

# MainPhos

Mainphos is a Mainfert range of near pH neutral sustained release products.

Mainfert has worked with independent manufacturers to develop a fertiliser that meets modern requirements for non-soluble phosphate and sulphur applications. As with all Mainfert nutrient solutions, the Mainphos range is adaptable to your system for capital, maintenance, regenerative or biological farming, the Mainphos range is adaptable to all.

Available for granular blends and fine particle fertiliser.

### Key benefits:

- High Phosphate availability
- High Calcium
- Low leaching and "lock up" potential
- Other elements can be blended as required
- Environmentally friendly

## Mainphos product range:

Product	N	P	S	Ca
<b>Mainphos</b>	<b>0</b>	<b>18</b>	<b>0</b>	<b>25</b>

- Granulated Dicalcium Phosphate
- Ideal for pasture capital and maintenance requirements. Drilling grade available.

<b>Mainphos XP</b>	<b>11</b>	<b>17</b>	<b>1</b>	<b>10</b>
--------------------	-----------	-----------	----------	-----------

- Blend of Dicalcium Phosphate, guano Phosphate and DAP
- Ideal for pasture capital and maintenance requirements when Nitrogen is also required

<b>Mainphos 16C</b>	<b>0</b>	<b>16</b>	<b>0</b>	<b>23</b>	<b>Mo and Humate</b>
---------------------	----------	-----------	----------	-----------	----------------------

- Dicalcium Phosphate based product with added Carbon and Molybdenum
- Ideal for pasture capital and maintenance requirements. Mo to increase clover

<b>Mainphos XPC</b>	<b>10</b>	<b>16</b>	<b>1</b>	<b>9</b>	<b>Mo and Humate</b>
---------------------	-----------	-----------	----------	----------	----------------------

- Blend of Dicalcium Phosphate, guano Phosphate and DAP with added Carbon and Molybdenum
- Ideal for pasture capital and maintenance requirements when Nitrogen is also required

<b>Mainphos 10</b>	<b>0</b>	<b>10</b>	<b>0</b>	<b>26</b>
--------------------	----------	-----------	----------	-----------

- Guano Phosphate. Natural form of Phosphate

<b>MainCalci P</b>	<b>0</b>	<b>6</b>	<b>14</b>	<b>73</b>
--------------------	----------	----------	-----------	-----------

- Blend of Mainphos 16, Elemental Sulphur and Aglime\*
- Ideal for pasture maintenance where there is Calcium deficiency, especially on hill country

<b>MainCalci XP</b>	<b>0</b>	<b>10</b>	<b>14</b>	<b>70</b>
---------------------	----------	-----------	-----------	-----------

- Blend of Mainphos 16, Elemental Sulphur and Aglime\*
- Ideal for pasture maintenance where there is Calcium deficiency, especially on hill country

\*Available at Springfield, Mt Somers and Weston lime works
